## BABES

Baby & Breastfeeding Encouragement & Support

### Local Breastfeeding Groups across Nottinghamshire

**BABES** drop in sessions run in all areas of Nottinghamshire. Please see the centre spread of this leaflet to find your local group.

**BABES** offer a welcoming atmosphere for all mums who breastfeed and are run by staff and Peer Supporters. You can get together with other mums who may be going through a similar experience and share tips and techniques. It's a great way to make friends, by getting help to feed in a pain-free way, you will make more milk and your baby will receive more milk with each feed when the feed is totally comfortable.

*A local breastfeeding group in Nottinghamshire (Toddlers welcome)*

Come along and make friends with other mums. Varied breastfeeding topics are

discussed; your baby will enjoy a play session, and join in the sing along at the end of each session.

Many mums practice breastfeeding in public first at **BABES**, which builds their confidence to move on to other more public places. Pregnant women find the group useful in providing a good idea of what to expect and join our interactive antenatal workshops

### Who are breastfeeding Peer Support volunteers?

These are mums who have breastfed, completed a 20 hour breastfeeding course and are keen to support mums like you, in the early days of breastfeeding your new baby. They spend a few hours each week in their local areas working as volunteers and follow confidentiality and safeguarding children practice guidelines.

## Peer Supporters can:

- Help to run the BABES groups and provide support with positioning and attachment
- Offer tips to increase milk supply
- Show mums how to hand express
- Offer information on many practical ways of helping mums to enjoy their breastfeeding experience

## Healthy Family Teams

Your Healthy Family Team will be able to offer support with breastfeeding to mums and want

*Peer supporters support mums to breastfeed successfully.*

breastfeeding to be a good experience for you and your baby.

During pregnancy, attending your local BABES group, a group antenatal session or having a home visit can provide tips on helping baby's development before and after birth, and how to get breastfeeding off to a good start.

At a BABES group you can meet a member of staff from the Healthy Families Team, as well as Children's Centre Staff and volunteers, and learn all about what's available for you and your family during pregnancy and after baby is born.

After the birth the Healthy Family Team can provide early one to one support in the home and can help with:

- Positioning and attachment and hand expression
- Feeding in the first few days, so ensuring baby gets lots of milk
- Maintaining breastfeeding: feeding whilst out and about, night-time feeds and return to work information.

The **Lime Green Team** work with the community midwifery team and provide additional support to mums in order to ensure breastfeeding is a good experience for you and your baby. The LGT and Healthy Family Teams work closely together to support you with breastfeeding and enabling you to continue for as long as you wish. When the LGT have finished visiting you can access support from your HFT.

**Specialist Breastfeeding Clinics** - your Health Visitor or Children's Centre can refer you for complex feeding issues.
