

Nottinghamshire Healthcare is a major provider of mental health, intellectual disability and community healthcare services

COPPS Project
Co-Produced Psychiatric Simulations
Design Group for Simulated Learning

Locations:

Involvement & Volunteering Centre, Duncan Macmillan House
Occasionally other areas

Responsible to:

The Design Group and the delivery of co-produced simulated learning methods to the wider COPPS Project Team.

Purpose of task:

To work within a co-produced way and develop lived experience scenarios, co-produced methods of evaluation and to function as part of a steering group towards the projects operational delivery. An opportunity for volunteers to take part in role play may happen depending on the type of simulation that is designed.

Description of task:

To use your lived experience to support the developing of co-produced scenarios
To use your lived experience to support the development of an evaluation tool/model
To be part of the decision making group and work to deliver the groups agreed aims
To volunteer and commit to working groups away from the main Design Group

Expectations

You

- To commit to attending COPPS Project meetings, which are fortnightly to weekly
- To listen to all experiences respectfully and accept differences of opinion
- To be able to work in a co-produced way
- To read the information provided to the group in order to play a full role.

The Trust

- We will run regular meetings
- We will facilitate the co-production with members from the group.

Skills/ Qualifications

Have the ability to work with others and see alternative points of view
The ability to understand the difference between your own views and how an agreed co-produced view can differ
Have good listening skills
Can work as part of a team

Training/ Support
